At the special meeting of shareholders of the American Flag Mining conpany in Park City last Saturday, a total of 477,000 out of a total of 500,000 shares were represented. The object of the gathering was to authorize the directors of the company to proceed with the plant to issue bonds to the

city, and had it not been for the disaster which put the Ontario drain tunnel out of commission for over three
years, there is little doubt but that
the compay would have been on a dividend paying basis a long time ago.
But water having penetrated the lower

drain tunnel, there was nothing left to
do but to sit back and wait for it to

In the meantime, Captain Singiser,

THE COPPER MARKET.

(Pollock Special Wire.) Boston, July 13.-Boston News Bu Boston, July 13.—Boston News Bureau says: One of the large metal selling agencies says: "Contrary to the general impression there has been a fair amount of business in copper in the past two weeks. To my knowledge there have been sold upwards of 10,000-000 pounds of copper, the greater portion of which was disposed of last week. The sales in question were made a low as 12½ cents net, cash equivalen to about 12% cents delivered in 30 days These transactions were about equally divided between foreign and domestic orders. The sales effected last week were at prices somewhat better than those I have quoted and some business has been done at 12%@12% cents for electro. My information is that both the brass and wire industries have received some encouraging orders which accounts for the most part for the better business booked by the copper sellers."

GODIVA ON ACTIVE LIST.

PARK CITY MINE NOTES.

Supt. R. L. Andrews of the Uintah-Treasure Hill, says the Park City Re-

Grover Evans returned from Battle Mountain, Nev., the first of the week. He reports conditions at the property in which E. P. and George Evans are heavily interested as most favorable, and expects it to develop into a big bonanza before long. He brought a sample of high grade ore from the property for the Rocord cabinet.
